

## About the Institute

MGM College of Engineering and Technology (MGM CET) is governed by Mahatma Gandhi Mission, A Charitable Trust, Registered under the Bombay Public Trust Act 1950 and Societies Regulation Act 1860. Since its inception in 1982, Mahatma Gandhi Mission has developed into an excellent educational group and is totally committed to human resource development. MGM has now a chain of Engineering, Medical, Nursing, Management, Dental, Physiotherapy, Science, Journalism and Fine Arts spread over five educational centers, Navi Mumbai, Aurangabad, Nanded, Noida and Parbhani.

The four courses viz. Computer, Bio-medical, Electronics & Telecommunications and Civil are accredited by National Board of Accreditation (NBA). MGM CET is housed in a spacious campus near Panvel at the junction of NH-4 and Mumbai-Pune Expressway, but in modern style of architecture, best suited to secure the requisite effect of simplicity & dignity which should be associated with a technological institute. It maintains picturesque and lush green gardens around to provide a soothing atmosphere conducive to learning. Admission to the institute is as per the procedure laid down by Directorate of Technical Education, Maharashtra State.

## About the Conference

NEWAGE - 2018 is the National Conference on environment, water & chemical Advanced technologies conducted by MGM's CET. The Conference aims at identification and description of common environmental problems for which research is needed. The main objective is to explore issues, innovations and integrated approaches towards environmental sustainability. The Conference will provide a unique platform of eminent professionals, academicians, researchers and entrepreneurs to participate and share their research advancements and new technologies. There will be plenary sessions in order to allow participants to address relevant issues. As environmental issues are multidisciplinary in nature, contributory papers are invited from all branches of engineering under the following themes:

- Air Pollution in Indian Cities - Present Status and Future Action

- Sustainable Urbanization
- The New Plastic Economy: Eco solutions for balancing Economic and Environmental Sustainability
- Waste to Resource (W2R): A conceptual framework and entrepreneurship opportunities
- Marine Litter
- e-Waste & Industrial Waste
- Greenhouse Gas Emission Control Technologies
- Oil Waste & Bio-Waste
- Production of Environment Friendly Products
- Equipment & Tools Recycling
- Any other topic relevant to the theme

## Call for paper
