M E S S A G E

I am indeed very happy to note that National Conference On "Challenges in Engineering Teaching and Research (NCCETR-2018)" is being organized by the Mahatma Gandhi Mission's College of Engineering and Technology, Navi Mumbai during June 3-4, 2018 in the College premises. Conference of such nature is most relevant in the present context as the Industry keeps on stating that the graduates are not industry ready. Thus this conference provides a great opportunity to Engineering faculty not only to update knowledge and keep obsessed with latest developmental scenario in the Engineering field, but also an occasion for the resource persons / delegates / observers to exchange ideas and interact with each other. It is a high time to initiate research activities in the Engineering Colleges.

I take this opportunity to congratulate the organizers for selecting this theme and extend warm welcome to the resource persons and delegates registered for the Conference. I wish the Conference grand success.

(Dr. Abhay Wagh)
