

Date- 16/03/2020

Dear Students,

You have all been communicated that our regular schedule for the institution is suspended for next two weeks considering the outburst of Corona (covid-19) virus.

The semester activity was about to get over and this was important time for keeping ourselves in the pace with the regular schedule, to get the missed practicals completed, completion of the journals etc. But we are losing two weeks crucial time. How to compensate for this? It was a matter of concern for all of us so we conducted a meeting of all teachers in the morning.

So it is decided that the teachers will communicate with you through Google Classroom, Emails and keep you connected with your studies. They will give you assignments and get back the responses. Based on these activities, the best performing class, student and teacher will be identified & rewarded when our regular functioning start.

You are also advised to undergo some MOOCs provided by Coursera - UDEMY etc. It is free of cost for you in this period. The details will be shared with you on the WhatsApp group of your class by your teachers.

Instead of sitting idle and worrying about CORONA virus, let us all utilise our time in the interest of our academics.

Love you all.

Take care. Stay Safe

Dr. Geeta S. Latkar
Director
