Activity

7 habits of highly Effective People:

Discussed about the 7 habits of highly Effective People which are as follows:

Habit 1: Be Proactive

Focus on the things you can actually do something about. Highly effective people make the decision through the things that they can influence rather than by simply reacting to external forces.

Habit 2: Begin with the End in Mind

Begin everything you do with a clear picture of your ultimate goal.

Habit 3: Put First Things First

Manage your life according to your needs and priorities.

Habit 4: Think Win-Win Integrity:

In cases where a "win/win" deal cannot be achieved, accept the fact that agreeing to make "no deal" may be the best alternative. In developing an organizational culture, be sure to reward win/win behavior among employees and avoid inadvertently rewarding win/lose behavior.

Habit 5: Seek First to Understand, Then to Be Understood

Learn how to communicate clearly and listen to others.

Habit 6: Synergize

"Two heads are better than one." Through mutual trust and understanding, one often can solve conflicts and find a better solution than would have been obtained through either person's own solution.

Habit 7: Sharpen the Saw

Allow yourself to grow by maintaining a balanced program in the four areas of your life: physical, social/emotional, mental, and spiritual.

Debate

Date: 7/2/18

Topics

1. Censorship on Social Media- Right or Wrong

Right	Wrong
protect people and keep them safe from things that are bad.	censorship denies access to vital information
keeps children from hearing and seeing inappropriate things	Censorship ignores people's right of freedom.
If there was no censorship in the world, an overabundance or violence or debauchery could be accessed with one press of a button.	parents of these kids should keep the bad things away from their kids, not the government.
	censorship prohibits from knowing the true meaning of inappropriate things needed.

2. Nuclear Family vs Joint Family

Nuclear Family	Joint Family
small family, happy family	celebrate together
don't have to share the expenses	Responsibilities are shared
can maintain the relations by keeping the distance	Children are nurtured in good moral values
cons of joint family	Cons of nuclear family-
if less members are working then, burden will be only on those members.	Children may feel loneliness
Possibility of quarrels because of the different mindset of the members	Don't get support in financial crisis

3. Arranged Marriage Vs Love Marriage

Arranged Marriage	Love Marriage
Different feeling of loving a stranger	Knows the life partner before marriage
Love starts after marriage	Can marry the person with our choice
Society and Family support. If something goes wrong, family supports	parents of these kids should keep the bad things away from their kids, not the government.
Cons of love marriage	Cons of Arranged marriage
Don't get family support always, so may have to do run away marriage	If forcefully married to a person of parents choice, marriage maybe a failure.
Possibility of inter caste marriage, so have to adjust each and everything.	
If something goes wrong, may not get family support.
